Probability Rating (P) with Guide

= Improbable (hardly if ever)

= Remote (< annually)

= Possible (annually)

= Probable (monthly)

Severity Rating (S) with Guide

1 = First Aid Injury

2 = Minor injury (say 3 days off work)

3 = Major injury

4 = Permanent incapacity or death

Risk Rating (RR) = Probability x Severity

1 Low, Acceptable risk. Any remedial measures helpful rather than essential.

-

6

8 Normal risk. Implementation of additional practical remedial measures identified is strongly

advised where this would result in a reduction of risk.

9 High risk. Implementation of additional practical remedial measures is urgent

- and essential.

1

6

= Likely (daily/weekly)

5

2 Unacceptable risk. Termination of activity is recommended pending full
0 review.
